The Honorable Rosa DeLauro  
Ranking Member  
House Appropriations Committee  
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the NYCHA Harborview Terrace Elevator Replacement Project in fiscal year 2026. The entity to receive funding for this project is the New York City Housing Authority, located at 250 Broadway, New York, NY 10007. The funding would be used to modernize and replace two elevators in the Harborview Terrace development, which is a 15-story building home to nearly 1,000 low-income residents, many of whom are seniors, who have faced inconsistent elevator service for years.

The funding allocated for modernizing and replacing two elevators in the Harborview Terrace development, a 15-story building housing nearly 1,000 low-income residents, many of whom are seniors, is set to bring significant benefits to the constituents of New York's 12th Congressional District. Reliable elevator service is crucial in high-rise residential buildings, especially for elderly residents and those with mobility issues. For years, the residents of Harborview Terrace have faced inconsistent and unreliable elevator service, which can severely impact their quality of life and limit their ability to access essential services. By upgrading these elevators, the project will enhance daily convenience, improve safety, and ensure that all residents, particularly the most vulnerable, have consistent and dependable access to their homes. Additionally, modern and efficient elevators can also contribute to the overall energy efficiency of the building, reducing maintenance costs and downtime, and ultimately providing a more sustainable and comfortable living environment for all residents.

The project has a Federal nexus because the funding provided is for purposes authorized by 42 U.S.C. 5305(a)(2).

I certify that I have no financial interest in this project, nor does anyone in my immediate family.

Sincerely,

Jerrold Nadler  
Member of Congress
